Box No. I Basis of this opinion

1. With regard to the **language**, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- ☐ a sequence listing
☐ table(s) related to the sequence listing

b. format of material

- ☐ in written format
☐ in computer readable form

c. time of filing/furnishing

- ☐ contained in the international application as filed.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-23	YES
	Claims	NONE	NO
Inventive step (IS)	Claims	2,3,5-14,16-23	YES
	Claims	1,4,15	NO
Industrial applicability (IA)	Claims	1-23	YES
	Claims	NONE	NO

2. Citations and explanations :

1. Citations

D1 : KR 2003-047095 A (2003.6.18)

D2 : KR 2001-097336 A (2001.11.8)

2. Inventive step

Claims 1,4,15 of the present invention relate to the technical features of a method and an apparatus for detecting the movement of the mobile telecommunication terminal and for controlling the character's movement in the mobile telecommunication terminal according to the detection result.

D1 discloses a key input apparatus which detects and outputs the directional information for the movement on the sensor when a portable terminal is moved by a user and then, helps a user play screenscroll on 3-D game.

D2 discloses a method for On-line game production which shows the character's movement according to the game procedure equipped with game server & game information database.

Since the present invention and D1,D2 belong to the similar technology field as portable game apparatuses, claims 1, 4, 15 of the present invention can be created easily by a person skilled in the art through the application of D1 and D2.

3. Novelty and Industrial applicability

The present invention meets PCT Article 33(2), (4) therefore it is novel and industrially applicable.
